Dear Wayne and Max:

I would like to thank Arlen Wusson and the crew that worked on our ICU remodel for the excellent, professional job and on-time completion of that job.

They were extremely professional. They would communicate appropriately with the nurse when the job had the potential for getting noisy and often would have to delay work to accommodate our need to protect the patient.

Arlen was just a pleasure to work with and I hope we can work with him again on any hospital project.

Sincerely,

Mary Margaret O'Gara, R.N.

Dear Max,

We have been quite remiss about sending you this letter, but hardly a day has gone by that we have not thought about you. We can't thank you enough for your kind assistance on the Aspen Valley Hospital Administrator's House project.

Your advise to us has been excellent, and we have appreciated your valuable input every step of the way. Construction is not our field of expertise and we would not have the successful project that we have today without your suggestions on many areas of the project.

We thank you again for your long time support of Aspen Valley Hospital, and hope to continue working with you for many years in the future.

Sincerely,

R. William Ayres, Jr.
