Dear Max:

On behalf of the Board of Directors of Aspen Valley Hospital, I want to thank you for the absolutely superb work that you and your firm did on our various construction projects during the past year. All of the projects -- the assisted living, the employee housing, the CT scanner and the MRI -- were completed according to schedule and with an absolute minimum of cost overrun. You and your associates were wonderfully cooperative and easy to work with. It was just a great pleasure to deal with you. Thank you again.

Sincerely yours,

Walter H. Ganz, President  
Board of Directors
