Mr. Max Goracke
President
Rudd Construction
0132 Park Avenue
Basalt, CO 81621

Dear Max:

I am writing this to express my appreciation for the fine job Rudd Construction did in building our new residence in Meadowood. Your company has a well-deserved reputation for building on time and on budget as is the case on our job. In addition, I was most impressed with the whole crew that worked here. Mike Cerise as construction supervisor was always available to discuss any details and to answer questions we might have and Gary Setnes, the on-site construction foreman, kept everything running smoothly. Your men got along well with our architect and the finished product not only delighted us, but was a fine tribute to the painstaking care that went into its construction. Needless to say, both Ruth and I are more than satisfied with your work.

With kind regards,

David R. C. Brown
