To Whom It May Concern:

This is a letter of personal reference for Rudd Construction of Basalt, Colorado. Our firm, as architects, has worked with Rudd Construction and we have found them to perform a fine quality of workmanship in the buildings they construct. The people in their firm are careful, good quality craftsmen.

I have personally known Wayne Rudd for about a year and a half and he and some of his crew have done finish work for my own residence. I was very satisfied with the work they did and do not hesitate to use their services again. Nor do I hesitate to recommend them for other construction projects.

Sincerely,

CAUDILL GUSTAFSON & ASSOCIATES ARCHITECTS, P.C.

James A. Gustafson
