
RIVERSIDE PLAZA

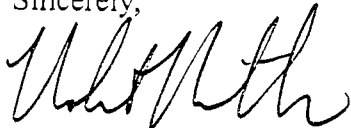

To Whom It May Concern:

I would like to express my sincere appreciation for Rudd Construction's smooth, professional and skillful construction of my projects located at Ute Center in Basalt. This was a complex building process involving several buildings, each with its own set of unique challenges. All work was done in a most professional and timely manner. Attention to detail, awareness of my wishes as the owner and attention to cost saving details made this a project to make both of us proud!

I have employed Rudd Construction for several projects and have found the whole building process, from conception to completion, to be both satisfying and pleasant. From Mark Przybylski, the project manager, and Randy Van Engelenburg, the project superintendent, to the carpenters and laborers, to the office staff, to the subcontractors – it was a great experience!

Rest assured, I am employing Rudd Construction in my newest project and would be happy to recommend them as the most competent and qualified.

Sincerely,

Robert Ritchie
