To Whom it May Concern:

It is with great expertise and experience that I am recommending Rudd Construction as an excellent and professional Construction Company. After another construction company recently completed an 18,000 square foot building for our company, the trials and hardships required me to find a new group to build my Red Mountain home. The most outstanding quality that Rudd Construction exhibits is their team work which tirelessly aims to please the client. From the company partners, Mark Przybylski & Wayne Rudd to the job supervisor, Jim Kehoe, and site supervisor, John Walker, your interests become their concerns from change orders to time and financial budgets. Building 155 Nighthawk was a fun creative process. All the personnel at Rudd Construction made me feel like it was a family project. Most importantly, is that once the house was completed, Rudd Construction stayed involved with any problems, improvements or additions that might arise. I highly recommend Rudd Construction to anybody that wants to experience building with trustworthy, hard working people who are playing on your team. If you'd like to set up a time to see the house or speak to me, please feel free to set up a time with Jim Kehoe or John Walker.

Sincerely,

Andrea Jaeger
