

23 December 2002

To Whom it may concern:

I would like to recommend Rudd Construction to you. My partner and I have worked with Rudd on many projects over the past ten plus years. We look forward to working with them again in the future.

On every project, we have been extremely happy with the consistency of the quality and attention of the staff from senior management to the superintendents to the laborers. Wayne Rudd, Max Goracke, and Mark Przybylski have put together a great organization, and have kept it running smoothly for years.

Dale Abbott was the superintendent for my residence and a "spec" home I built. As both the architect and the owner, I was very pleased with every aspect of the projects, Dale's management of the process, and the final product. Dale, like everyone at Rudd, was focused, friendly, hard working, and ready to solve problems as they arose. Dale, like the others, has a knack for making a difficult process pleasant, keeping the work flowing, and never losing focus on the details and quality necessary for a great construction project.

Like the other projects we have done with Rudd, their follow-up after completion is as good as the work itself. I have been, like many of my clients, extremely pleased with our experiences with the entire crew at Rudd Construction. You cannot find a more honest, capable, and hard working construction firm.

Feel free to call me and discuss any aspect of Rudd Construction and their work.

Sincerely,

A handwritten signature in black ink that reads "DAVID BROWN". The signature is written in a cursive, slightly slanted style.

David P. Brown
