Dear Wayne and Max:

Just a note to express my appreciation for the manner in which your company constructed my new condominium complex. Not only did you finish forty-nine days ahead of schedule, but you brought the project in within the budget and with none of those unpleasant and costly "surprises" you hear many owners complaining about when discussing their contractor.

I am also indebted to you for your participation in the design phase with my architect. The cooperation between architect and builder was magnificent and I'm sure it played a big part in the overall success of the building project.

Again, my thanks for a job well done.

Sincerely,

Mary McCarten, Owner
