Mr. Wayne Rudd
Rudd Construction
0132 Park Avenue
Basalt, Co. 81621

Dear Wayne:

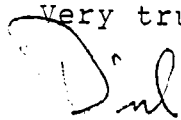

I wanted to send you this note to thank you for your work on the Holmes job. Since this is the last day that your guys will be full time on the job I wanted to express my special thanks to Mike for running the job in the main stages. He kept track of the many decisions that Dick Fallin, both the Holmes, and I all threw at him. He never lost his temper or seemed flustered. He is a great asset in your management team.

Then, Doug took over the finishing up of the details. He too, kept his cool thru the changeover from the final finishing details and the painting down thru and including the installation of the interiors. He was a very valuable asset to the finishing of the project and a special help to me in the advice and execution of the interior furnishings.

Of course, the guy who was the "bright star" of the project was Dan! While only 20, he has the great makings of one of the finest future managers you might ever have. He was truly helpful in every sence of the word to all that asked him a question or asked him for help.

You should be proud of your team, Wayne! My very special thanks to all of them for getting the job done so well.

Very truly yours,

Dick Knecht
